Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA

9	Test files and test results	No
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

```
LegalEase/
  main.py
  routes.py
  ai core/
    gemini generator.py
  Streamlit frontend / UI
  .env
  requirements.txt
  Document export: TXT / DOCX / PDF
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not provided (local deployment documented)
Login (Demo) Cred	Not applicable / not provided
Platform / Host Provider	FastAPI backend + Streamlit frontend
Repository Link	(https://github.com/kanimozhibca2025-star/LegalEase)
Demo Video Link	(https://drive.google.com/file/d/1Y9xEsIOWiWnCd161440lxsYeoXfQAfcl/view?usp=drivesdk)

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

1. Install Python and create a virtual environment.

2. Install dependencies from requirements.txt.
3. Configure the Gemini API key in .env.
4. Start the FastAPI backend using main.py/routes.py.
5. Start the Streamlit frontend.
6. Open the Streamlit UI, enter document details, generate the legal document, edit if needed, and TXT, DOCX, or PDF.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	No hosted URL is specified in the source.	Use the local deployment setup.
2	Demo login is not specified.	No login is required in the documented workflow.
3	Gemini API key is required.	Set the key in .env before generation.
